

MONTANA AGRICULTURAL EXPERIMENT STATION

SUMMER 2017 INTERNSHIPS

MAES is pleased to announce the second year of the Summer Internship Program! Paid internships are available at each of the seven MAES Research Centers. Each intern will serve eight weeks and receive **\$4,500** in remuneration. Selected interns also can receive an optional **\$400** towards summer tuition credit towards MSU, MSU-N or MSU-B coursework through the Summer 2017 registration process with their academic department. Students will need to seek approval for academic credits and the department will determine the scholarly product required for credit. All interns will assist with various research projects, farm and ranch related tasks, data analysis and more. This will be a wonderful item for résumés, as it encompasses all aspects of agriculture research work experience. On-site housing is available at some of the centers.

TO APPLY

- Submit a letter of interest including your full name, major, year in school and contact information.
- A 300 word essay on why you are interested in a Research Center internship.
- Please note if you are interested in working at a particular Research Center.
- Email completed application materials to Dr. Barry Jacobsen, Associate Director, MAES, at: bjacobsen@montana.edu.
- **Application deadline: March 22, 2017** – selected interns will be notified by April 7, 2017.

For more information regarding an individual center & potential internship experiences, contact the Research Center Superintendent:

Research Center	Superintendent	Email	Phone	Housing Details
