

Articulation Agreement  
Between  
Miles City Community College (MCC) and Montana State University (MSU)

**Overview:**

This formal program articulation agreement is made and entered into by Miles Community College and Montana State University-Bozeman, hereinafter referred to as MCC and MSU, respectively. By this agreement, MCC and MSU express a shared commitment to increasing opportunities for student access to and success in education leading to baccalaureate degree programs.

**Purpose:**

This agreement allows students to pursue a baccalaureate degree at MSU by following course articulation agreement described herein. By completing the agreed upon curriculum program in Animal Science-Equine Science at MCC, students can transfer to MSU and complete the Bachelor of Science in Animal Science-Equine Science upon completion of the remaining degree requirements. Any MCC student who has completed the required coursework while adhering to the guidelines within this agreement is guaranteed the transfer of accepted designated major-related requirements into the MSU Animal Science-Equine Science Option curriculum as described below.

**Conditions of Transfer:**

***Section I: Admission and Matriculation:***

MCC students maintaining continuous enrollment under this agreement will be afforded the same treatment and protection as traditionally enrolled MSU students under a specific catalog.

Criteria and requirements for acceptance into MSU will be the same for transfer students under this agreement as those for traditional transfer students and can be found at <https://www.montana.edu/admissions/apply/transfer.html>.

Students will use the Request for Transmittal of Admissions Materials to have their application and transcript sent from MCC to MSU and serve as the student's application to MSU. Students should also notify the Registrar's Office at MSU that they wish to have their credits applied as per this agreement.

Upon admission to MSU, transfer students from MCC will have access to student services, financial aid, and scholarships on the same basis as traditionally enrolled students.

Articulation Agreement  
Between  
Miles City Community College (MCC) and Montana State University (MSU)

Upon admission to MSU, the same student conduct, academic progress, and graduation standards apply to MCC transfer students as those applicable to traditionally enrolled students.

***Section II: Program Plan:***

This curriculum plan was developed utilizing a course-by-course assessment. In some cases, the course will transfer as a direct equivalent and in other cases, the plan pre-approves specific course substitutions. Additionally, this agreement affirms that the core requirements of general education at MCC meet the general education core requirements at MSU in accordance with the Montana Board of Regents policy 301.10 - General Education Transfer Policy. Students transferring to MSU under this articulation program will be responsible for successfully completing all additional prescribed requirements per the MSU catalog under which the student enrolls.

**Terms of Agreement:**

This agreement is made and entered into in the academic year 2026-2027 and remains in force for four years unless changed in writing by mutual agreement of both MCC and MSU. This agreement may be amended at any time with the agreement of both MCC and MSU and is subject to regular review to ensure the currency of course rubrics, course numbers, course prerequisites, and degree requirements. Should MCC or MSU desire to discontinue this articulation agreement, a one-academic year advance notice will be required.

Articulation Agreement  
Between  
Miles City Community College (MCC) and Montana State University (MSU)

<sup>1</sup> This agreement assumes that students have received an Associate of Arts or Science from MCC and therefore have met the general education (CORE 2.0) requirements at MSU, as such, the individual CORE courses are not delineated herein.

<sup>2</sup> The number of credits awarded for the course (or requirement) at MSU. Students will be granted the number of credits from the school at which the course is completed.

<sup>3</sup> MCC Required Coursework may be Core General Education requirement or program-specific requirements to meet degree requirements for an Associate of Arts or Associate of Science at MCC.

<sup>4</sup> A list of the available options for Applied Courses, Equine Science Electives, Economics and Business Electives, and Management and Industry Electives is provided in the MSU catalog.

<sup>5</sup> University Electives should be used to fulfill any missing graduation requirements such as upper division credits or general electives.
